ANNOUNCEMENT

Continia conclude a distribution agreement with IT.integro

Poznan, Poland – September 9, 2015 – IT.integro and Continia Software A/S today announced a conclusion of agreement, so IT.integro now is official distributor of all international Continia products in the Polish market.

“With this agreement, we are looking forward to offer Microsoft Dynamics NAV users in Poland the best possible access to our products. We are very proud of our new partnership with IT.integro, and we believe that this will lead into increase in sales of our products in this market”, says Henrik Lærke, CEO of Continia.

“We have followed the development of especially Continia Document Capture for a longer period, and see great market potential for the product and we are looking forward to introduce Continia Document Output and Continia Expense Management to the Polish market as well”, says Piotr Śledź, President of the Board at IT.integro.

About CONTINIA

Continia Software A/S is a leading software vendor within horizontal add-on solutions for Microsoft Dynamics NAV. More than 150 registered partners in the Microsoft Dynamics NAV eco system have experience delivering our software to their customers. Today more than 4,000 Microsoft Dynamics NAV installations actively use one or more of our products to speed up or automate various administrative processes.

About IT.INTEGRO

As a leading provider of ERP systems, IT.integro specialize in business management software for companies. The company belongs to a group of key Microsoft partners in the world and was the first company in Poland awarded the Microsoft Gold Partner title. The leading position among Polish providers that implement Microsoft Dynamics NAV solutions was confirmed by Partner of the Year titles in 2012, 2011, 2010, 2009, 2008, and 2006 (the second position).
