Continia conclude a distribution agreement with CKL Software

Hamburg, Germany – October 1, 2015 – CKL Software GmbH and Continia Software A/S today announced a conclusion of agreement, so CKL now is Official Distributor of all international Continia products in the markets of Germany, Austria and Switzerland. With this announcement, CKL Software will take over from previous Official Distributor, GB EDV.

“I want to thank GB EDV for their big efforts, they have put into our products towards the German speaking markets. We are thankful for that. Now, we are looking forward to strengthen our position in the markets together with CKL Software. We see a great potential in this new partnership”, says Henrik Lærke, CEO of Continia.

“It was very easy for us to decide to become an Official Distributor of the Continia products. There is a strong synergy between our own products and Continia’s. We have the same approach how to sell products through Microsoft Dynamics NAV Partners and generally have many common values, how to run a business”, says Thorsten Behrens, CEO at CKL Software.
