How do I count the number of registered documents?
Registration of a document happens the moment you register a document for approval or posting. Through your Continia Dashboard, you will always have a clear overview of the daily consumption.

How is my consumption calculated?
At the end of each calendar month, your consumption and the total number of registered documents will be calculated. This number will determine your price by a simple look-up in our price table. Note that the number is based on total amount of registered documents in your Microsoft Dynamics 365 Business Central across all the companies that are registered in your license.
